

A Partnership Tailored to You

Open Hand delivers delicious, medically tailored meals and nutrition education to neighbors living with or at risk for chronic and severe illness. We were founded in 1988 when a small group of friends gathered to prepare and deliver home-cooked meals for 14 individuals disenfranchised by HIV/AIDS. Since then, we've grown to become **the largest provider of home delivered meals and nutrition education in the Southeast, and the only organization in the region accredited by the national Food is Medicine Coalition.**

All of our services are provided for free, as most of our clients live at or below the federal poverty line. To date, we've cooked, packed, and delivered over 37 million meals.

We believe food is medicine and food is love.
